CC: Clear Backing: Closed Pupil
BO: Black Backing: Open Pupil
Note: Any combination of the above is available

- Comfortable
- Consistent reproducibility
- Available in both open or closed pupil
- Clear back surface or black back surface
- Clear back option will allow natural iris colour to show through

CANTOR

PROSTHETIC LENS

- Near-photographic quality iris detail
- Disguises corneal scars, congenital coloboma, aniridia and traumatic iridoplegia
- Patented chemistry creates a glossy, smooth front surface
- Computer generated colour reproducibility for continued replacements
- Fitting sets available
