

COLOR ME

Disposable Color Lens

Color Me 1, 2 & 3 is a new series of colored disposable lenses for daily wear over a six month period. The lens is manufactured using the most up-to-date molding technology with meticulous emphasis on the structure of the lens edge, for increased comfort and stability of lens parameters.

Lenses from the **Color Me** range will give the customer's eyes a unique and beautiful look.

Each and every one of the lenses in the **Color Me** range creates a natural looking, real change to the iris color so the customer can enjoy a wide variety of colors and looks.

Color Me 1 – a single tone colored lens.

Color Me 2 – a lens balancing two tones with an outer black ring that enhances the unique color of the lens.

Color Me 3 – a winning combination of three tones with a darker outer ring and a lighter inner ring to enhance the unique color of the lens.
